**Deadline for Letters of Intent: June 10, 2022 (Noon)**

**Deadline for Grant Applications: June 30, 2022 (Noon)**

The West Virginia Developmental Disabilities Council is pleased to announce that it will make funds available for new projects aimed at improving opportunities for people with intellectual/developmental disabilities (I/DD) to gain full participation and inclusion in their communities. The Council is an independent, self-governing State agency established by Executive Order of the Governor in 1972 and funded by the Federal Administration on Disabilities/ Office on Intellectual and Developmental Disabilities (AIDD). Council membership is by appointment of the Governor and is composed of over sixty percent (60%) persons with intellectual/developmental disabilities and family members.

**Council Mission**

*The Council's mission is to assure that West Virginia citizens who have developmental disabilities receive the services, supports, and other forms of assistance they need to exercise self-determination and achieve independence, productivity, integration and inclusion in their community.*

**Five Year State Plan**

The DD Council will support innovative projects and activities based on goals and priorities described in its State Plan. Grant projects seek to demonstrate and study the impact of new approaches in service planning and delivery. To see the Plan, go to <https://ddc.wv.gov> and scroll down to the "What's New" header to find all of the grant forms. For FFY 2023, the Council will fund new demonstration, research, and training projects that would help accomplish objectives related to the Goals contained in the State Plan:

**Council State Plan Goals**

**1. Advocacy and Self-Advocacy: People with I/DD, their families, and allies will gain knowledge and develop necessary advocacy skills and use them to advocate for their rights, access to needed services, and systems' changes.**

Activities will support and expand self-advocacy, cross-disability advocacy, and leadership training.

**2. Community Building and Engagement: Communities will include people with I/DD as participating, valued members.**

Activities will encourage and support people with developmental disabilities and their families to be active participants of their local communities to enhance the quality of life for

all people. Trainings and support will enable people with disabilities, family members, and local community members to attain and maintain valued social roles leading to better self-image, health, and community engagement.

**3. Service System: Public service systems will be more responsive to the needs of people with I/DD and their families so people will have better opportunities to learn, work, and thrive in their communities.**

Activities will explore issues relevant to people with I/DD to address abuse and neglect and identify service disparities of underserved groups. Employment issues continue to be a priority in enabling people with I/DD to utilize person-centered approaches to obtain meaningful and gainful employment.

**Note:** For some objectives in the State Plan there are specific grant initiatives being carried out currently. Organizations are encouraged to submit *Letters of Intent* (see below) for any prospective project as a means of getting clarity on the advisability of developing full proposals.

### **Project Purpose and Outcomes Expected**

West Virginia Developmental Disabilities Council projects are time limited and address the Council's goals for supporting people with developmental disabilities in their communities. Proposals for demonstration grant projects are expected to be innovative and propose new ways to design and deliver community-based services.

Grant proposals should include strategies for statewide systems improvement and be replicable in other communities. Council funds are limited. **The Council will not fund proposals that address issues that are the obligation by law or regulation of other agencies or organizations. Additionally, the Council does not intend to replace funds that programs have lost or expect to lose from other sources.**

Successful proposals will have the potential for statewide applicability and include plans for sustainability of the project beyond the initial investment period (if appropriate).

### **Eligible Organizations**

Public and private entities, universities, and research organizations are eligible to apply. Organizations that receive grant awards from the Council must meet all conditions set forth in the West Virginia Department of Health and Human Resources Grant Agreement and comply with all applicable policies of the WV DD Council. Information about specific legal, fiscal, and administrative rules is available upon request.
